CHRIS PEDRAZA

UNITY DEVELOPER | 3D ARTIST & ANIMATOR

chris.l.pedraza@gmail.com | 509-301-4266 | chrispedraza07.github.io | linkedin.com/in/chris-pedraza

PROFESSIONAL SUMMARY

Unity developer and 3D artist experienced in building 2D and 3D games, responsive gameplay systems, enemy AI, combat, UI, and stylized character art. Skilled across the production pipeline from modeling, retopology, and texturing through rigging, animation, and Unity implementation.

TECHNICAL SKILLS

Game Development: Unity, C#, gameplay programming, player controllers, combat and weapon systems, enemy AI, NavMesh, boss encounters, UI, level design

3D Art & Animation: Blender, Maya, Substance 3D Painter, 3D modeling, sculpting, retopology, UV mapping, texturing, rigging, skinning, blend shapes, animation

Interactive & Web: HTML, CSS, JavaScript, Bootstrap, responsive design, AR/VR development, prototyping, playtesting, Git, GitHub

Creative Tools: Adobe Photoshop, Illustrator, After Effects

PROJECT EXPERIENCE

Sweet Justice | *Solo Developer & 3D Artist* | Unity, C#, Blender

- Designing and developing a stylized third-person arcade roguelite that combines shooting, platforming, enemy waves, boss encounters, pre-level loadouts, and persistent shop upgrades.
- Programmed a responsive character controller with sprinting, variable and chained jumps, dashing, aiming, moving-platform support, and Cinemachine camera modes using Unity's Input System.
- Built modular systems for weapons, object-pooled projectiles, enemy AI, NavMesh navigation, bosses, pickups, currency, upgrades, UI, and companion behavior.

T-Rex Character Pipeline | *3D Artist, Rigger & Animator* | Blender, Maya, Substance 3D Painter

- Created an original stylized creature from high-resolution sculpt through animation-ready retopology, UVs, baking, and layered texture development.
- Built a custom Maya rig with animator-friendly controls and attributes for foot poses, toe spread, and jaw movement; used blend shapes for eyelids and completed a walk cycle.

Battle Arena | *Game Developer & 3D Artist* | Unity, C#, Blender

- Developed a 3D local co-op game with two-player controls, scoring, combat, and defensive bot behavior; created the player and bot models and animations.

Factory Escape | *Character Artist & Gameplay Developer* | Unity, AR, Team Project

- Collaborated on a mobile 2D platformer that loads levels through AR targets; created character art and animation and contributed to movement programming.

PROFESSIONAL EXPERIENCE

Collections Specialist | *Citibank, Meridian, ID* | September 2019 - Present

- Manage sensitive customer accounts while delivering accurate, professional service in a high-volume, deadline-driven environment.
- Process payments, analyze account information, explain debt terms, and advise customers on available payment solutions.
- Resolve complex inquiries through clear communication, active listening, sound judgment, and careful attention to confidential information.

EDUCATION

Boise State University | Bachelor of Arts in Games, Interactive Media, and Mobile | Expected May 2027
